Mentoring  
Men & Women:  
Is It Different?

S P E A K E R :

**Marianne E. Felice, MD**

Chair and Professor, Department of Pediatrics,  
UMass Medical School

Wednesday, February 15, 2012

5:30 pm

Beechwood Hotel, Worcester

ABOUT THE  
SPEAKER

**Marianne E. Felice, M.D.**

Chair, Department of Pediatrics, Professor of Pediatrics & Obstetrics/ Gynecology, University of Massachusetts Medical School Physician-in-Chief, UMass Memorial Children's Medical Center

In addition to being the Chair of Pediatrics at the University of Massachusetts Medical School, Dr. Felice chairs the Worcester Infant Mortality Reduction Task Force, a coalition of health care providers, public health officers, and interested community members who have been meeting for the last 10 years to unravel the reasons behind the high infant mortality rates in Worcester, MA.

She was the Project Director of the Worcester Infant Mortality Assessment Project (WIMAP), funded by the Blue Cross/Blue Shield Foundation of MA and the state's Department of Public Health and the Principal Investigator for the National Children's Study for the UMass Site.

**Mentoring  
Men and Women:  
Is It Different?**

Successful mentoring relationships are important to both mentors and mentees. Based on her years of mentoring both men and women, Dr. Felice will address some of her observations of differences between men and women in the mentoring process. Being aware of these differences may help both mentors and mentees to derive the most benefits from the mentoring relationship.
